Early Literacy Readiness Screening

Temple Beth El – Pre-K

Dear Temple Beth El Families,

Temple Beth El is pleased to offer Early Literacy Readiness Screenings for Pre-K students this school year.

The screening will be conducted by **Kimberly Fischer**, an IMSE Orton-Gillingham Literacy Specialist from Love to Learn Educational Services. The purpose of this brief screening is to provide a snapshot of early literacy skills that support future reading development. Many families find this screening helpful in learning more about their child's developing literacy skills.

During the screening, children will participate in short, developmentally appropriate activities that look at early literacy abilities, such as:

- Phonological awareness (rhyming, syllables, beginning sounds)
- Letter–sound knowledge
- Print awareness (how books and print work)
- Listening comprehension

The screening is brief, child-friendly, and conducted individually during the school day.

The cost of the screening is $20 per student.

After the screening, families will receive a brief summary indicating one of the following:

- No concerns at this time
- Continue to monitor development
- Further literacy evaluation may be recommended

If you would like your child to participate, please complete the attached **screening consent form** and return it to the school.

If you have any questions, please feel free to reach out.

Sincerely,

Kimberly Fischer

IMSE Orton-Gillingham Literacy Specialist

About individualized literacy instruction

Kimberly provides individualized literacy instruction to strengthen oral language and communication, knowledge of print and letters, sound awareness, vocabulary and comprehension.

Multisensory instruction combines seeing, hearing, movement and touch. Activities build on each child's strengths and help connect new skills with what the child already knows.

A structured, individualized learning plan reinforces skills and concepts to support classroom learning. Screening results can help guide a conversation about whether further evaluation or instruction may be helpful; a screening is not a diagnosis.
